Supply of Sub-standard coal to Thermal Power Stations in Gujarat

5278. SHRIMATI URMILABEN CHIMANBHAI PATEL : Will the Minister of COAL be pleased to state :

(a) whether it is a fact that sub-standard coal is being supplied to various Thermal Power Stations in Gujarat ;

(b) whether Government have received an complaints from the State Government in this regard ;

(c) if so, the details thereof ; and

(d) the remedial measures taken by Government in this regard?

THE MINISETER OF STATE FOR COAL (SHRI AJIT KUMAR PANJA) : (a) to (d) According to information received from Coal Lndia Ltd. they have received complaints from Gujarat State Electricity Borad which complaints interalia pertain to size of coal etc. The percentage of despatches in respect of which complaints were received as against the total coal despatch to power houses of Gujarat during 1993-94 was 1.10%.

Indian coals generally are found interbanded with layers of shale, stone etc. Inspite of the best efforts, it may not always be possible to fully segregate shales, stone etc. from coal in the process of mining and handling. However, coal companies are taking following steps to improve the quality of coal :

(i) An action plan for installation of feeder breakers and coal handling plants is being implemented to ensure that sized coal is supplied to the consumers.

(ii) Stones are being segregated at the time of loading of coal.

(iii) Slow moving picking belts are being provided in coal handling plants for picking up of shale and stone pieces.

(iv) Better supervision is being ensured at the time of loading to maintain quality of coal and developing quality conciousness among workers, supervisors and executives.

(v) Modification and modernisation of existing coking coal washeries.

(vi) Setting up of new washeries for washing of coking coal for use of steel plants.

(vii) Setting up of coal beneficiation projects for supply of benificiated coal for some of the distant power stations located more than 1000 Kms from coalfields.

(viii) A legislation has also been enacted recently to permit beneficiation of coal by private parties.
